*Increase State Expenditures – \$8,000/One-Time

**Increase State Expenditures – \$10,000/One-Time**

Assumptions:

- According to the Department of Safety (DOS), there are 196,190 valid non-photo driver licenses on file. The standard renewal cycle is five years. On average, one-fifth or 39,238 (196,190 / 5) will renew each year.
- The current price of a non-photo license is \$15 and the price of a photo license is \$17.50.
- An increase in recurring state revenue of \$98,095 (39,238 renewals x \$2.50).
- Any increase in workload at the 50 driver license centers can be handled within existing resources without an increased appropriation or reduced reversion.

**HB 2287 - SB 2267 (CORRECTED)**

- A one-time increase in state expenditures of \$10,000 for information technology programming to require a photograph on every driver license.
